My Portfolio

BP3S : Certification Exam Portal

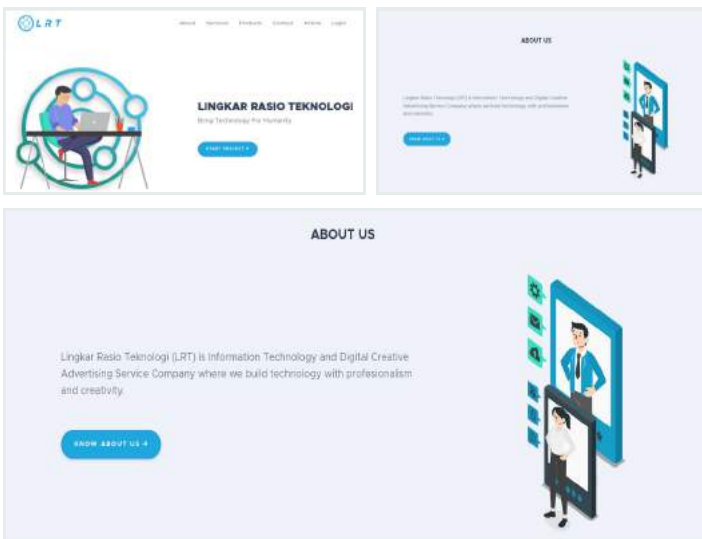

The BP3S website is a certification website for HR at the Ministry of Social Affairs. This BP3S system was created to certify human resources, such as extension workers, social volunteers, and social workers within the scope of the Ministry of Social Affairs. This certification system was supposed to be done offline, but due to the COVID-19 pandemic, finally certification had to be done online.

Tasks in the Project:

- Create and perform system analysis.
- Manage and management team for BP3S system project.
- Converting the design to a web programming language, using the Laravel framework.
- Deploy the system to staging and production.
- System maintenance and bug fixing.
